

Nature Art Cube Exhibition

《Nature Art Cube Exhibition》, which has been conducted as one of the indoor exhibitions of 《Geumgang Nature Art Biennale》 since 2017, is a program that seeks to interpret and broaden awareness of nature in various ways of thinking and expression in a 12cm cube. In fact, dealing with nature in a limited space is not as easy as you might think, but on the other hand, because it is a limited space, paradoxically, you may be able to show more imagination.
